# KIN THE MUSICAL

"A new British musical, written by a British Arab writer that feels completely familiar yet totally different! Oh... and to top it off it's not trying to sound like Hamilton or Les Mis! **I WANT TO INVEST!**"

**Emil Dale** is a British Arab, gay, director, producer, entrepreneur, writer and was one of the first people of colour to be a principal of a UK drama school. [www.emildale.co.uk](http://www.emildale.co.uk)

He is the founder of Emil Dale Academy in Hitchin, just outside of London and is also the co-founder of the talent agency Dale Hammond Associates. Alongside establishing the full and part-time schools of Emil Dale Performing Arts, Emil has also established The Factory Playhouse, a 200 seater theatre, previously a disused factory in Hertfordshire. [www.factoryplayhouse.com](http://www.factoryplayhouse.com)

**Stefan Kelk** grew up as a vocalist, writing songs and accompanying himself on guitar and piano. Stefan studied music at University and found a calling that shaped everything he would do in his future. Though his roots stem from commercial popular music, he now finds himself immersed in the world of new musical theatre. Stefan's experience in mainstream popular music, combined with his knowledge of writing and arranging for large orchestras in multiple genres offers him a unique perspective in musical theatre. The skills he has honed help him to write songs with evocative lyrics, craft energetic records with modern production and arrange emotive scores to augment scenes and heighten emotions.

### SOOOO WHAT'S KIN ABOUT?

Noah, a skilled rock climber, is broken and physically scarred after a tragic accident but Ashville, the small southern American town he lives in, has other problems!

The Kinship, a controversial community attracting people from all over the world, has purchased an old ranch in the little town, causing unthinkable conflict with the townsfolk. Misfit Noah, the mayor's son, desperate to prove himself to his father, is forced to take matters into his own hands and save the town from disaster. Noah climbs down the side of the cliff, the only entrance (this will look epic live on stage) and secretly joins the community. What Noah doesn't know is that Cora, a Kinsperson, is going to burst into his world in a riot of colour. And what neither of them know, is that they are going to change each other's lives forever.
